Become a Valuable Resource to UT Law Students

One of the Career Services Office's most valuable and utilized career resources is our online UT Law Mentor Directory. The Mentor Directory lists UT Law alumni and friends who are available to advise students on choosing a practice area, legal markets in specific geographic areas, and other career-related topics.

By becoming a mentor and making yourself available as time permits, you will not only help UT Law students and recent graduates in their professional development, you will also stay connected to the Law School, its students, and alumni.
